October 2015 – SeaScapes Online Art Exhibition Event Catalogue

Light Space & Time Online Art Gallery is pleased to announce that its October 2015 art exhibition is now posted on their website and is ready to be viewed online. The “SeaScapes” theme was considered to be any art with the subjects of scenes of coastal living, any ocean activities, seaside vistas and any related seashore subjects for inclusion into this art exhibition. The gallery accepted art on this subject that was either representational or abstract.

An art competition was held in September 2015 which determined and judged the art for this exhibition. The gallery received submissions from 18 different countries from around the world and they also received entries from 27 different states. Overall, there were 419 entries judged for this art competition.

Congratulations to the artists who have been designated as this month’s category winners, along with the winning Special Merit and Special Recognition artists. The gallery commends all of the winning artists for their artistic skill and their creativity, as this online art exhibition is indicative of their creativity. To proceed to the gallery’s “SeaScapes” online art exhibition follow this link https://www.lightspacetime.com/seascapes-art-exhibition-september-2015/.
